

PP/PE Pulse 300

Description : recycled pellet

Pulse 300 has a medium resistance. It is typically used in a variety of applications, eg containers, crates and boxes.

TYPICAL PROPERTY VALUES

Properties	Typical values	
Units		
Melt flow rate (mfr)		
At 230 deg C	12 - 15	dg/
min		
Density	900	kg/m3
Mechanical properties		
Tensile test		
Strain at yield	5.6	%
Charpy impact strength		
at 20 deg C	12 - 15	kJ/
m2
